"For us, the phrase, 'Lands Between,' represents the fantasy world that we tried to create. The Lands Between, which are in between two worlds, exist between the realms of life and death, and between the living and the dead. We tried to paint a vast world with a colorful and rich mix of magic, and to build a world that anyone can enjoy and that anyone can become the main character they want to be." Images) (CNNews.com) - The President of the United States of America turned a question of policy involving transgender bathrooms and locker rooms into a question of religious liberty and freedom of speech. During remarks at the Conservative Political Action Conference, President Donald Trump told the CPAC crowd that Democratic senators "are so afraid of offending people that they don't want to do anything." "They know we have to have borders," he said. "We have to have people and we have to have jobs." "We can't do that if we're going to be letting people come into our country, and we're also going to continue to be penalized," he continued. "We're going to lose our jobs. Our businesses are going to go out of business." Noting that the Democratic senators who voted against his executive order to ban transgender bathrooms at federal facilities were "afraid" of offending "people," Trump said that the Democratic senators "couldn't do it" because "they would be so afraid of offending people, they wouldn't know what to do." "They're afraid of losing their elections, they're afraid of losing their jobs, they're afraid of losing their careers, and they're afraid of losing their leverage," he said. "They're afraid of their religion and they're afraid of their animosities and their hatred, because really, that's their religion, that's their hatred, and that's their animosities," Trump said. "And it's not going to work

In addition, your role is strengthened when the race of the other participants are aligned with your own. For example, if you use your manoiz/a (fist) and your opponent uses his long bow, you become a superior melee combatant. You can also utilize combat magic and enhance your battle power. Based on your own philosophy, you can mold your character into one that is representative of your play style. Each statistics has been assigned to a difficulty for the character creation.
