Understanding image resolution When you open an image, you may notice that it is too small to see all the details. For example, you may be able to recognize only the logo in the photo. The image is _skewed._ It's unclear that what the image is supposed to be. The image may also not fill your screen, or it may be the wrong resolution. The resolution of an image is its quality — the number of pixels it uses to display its contents. A higher resolution means that more information is included in the image. The resolution of an image can affect the size of the file it uses. You can give it a higher or lower resolution. Photoshop lets you change the resolution of an image when you save it. Lower the resolution to get a smaller file with fewer pixels. Figure 12-2 shows a frame of dogs enjoying the outdoors. Notice the reflections off the pond. You can see the layers on the image. If you decrease the resolution of this image, you can still see the reflections and the layers, but now they are blurred. **Figure 12-2:** The lower the resolution, the blurrier the image. | --- | ---

They say they are doing everything in their power to ensure children are treated with respect and have legal representation. At least one federal judge said the widespread use of solitary confinement for migrant children is unconstitutional. Julie Stewart with the American Civil Liberties Union of Texas says the conditions are almost as bad as in detention centers in the United States. "It's been described as concentration camp conditions," Stewart told NBC 5. "It is really sad. The thought that we're treating kids in this way is just beyond mind-blowing." A coalition of 20 groups from Texas has filed a federal lawsuit that alleges mistreatment of children. The plaintiffs are asking for a federal judge to overturn the current policy. Bill Hill with the Human Rights Clinic at the University of Texas School of Law says the current conditions are heartbreaking. "Kids can't even have a hot meal. They're subjected to extreme temperatures during the night. They're kept in their cells in their underwear," Hill said. "And the kids, and the officers, are ordered to shut their eyes. And it's just a way to punish them." Attorney general Jeff Sessions said in a statement that the Trump administration is doing everything it can to reunite families and protect them.1.
